Student-Right-to-Know

Federal Graduation and Retention Rate Disclosure

Published - July 1, 2023

Pursuant to the federal Student Right-to-Know Act, on an annual basis, the College determines and makes available an overall graduation rate of certificate or degree-seeking, first-time, full-time undergraduate students. In addition, the College also provides the Student-Right-to-Know graduation rate disaggregated by various sub-categories, as determined and defined by the U.S. Department of Education.

The Student Right-to-Know graduation rate is based on a "cohort study," meaning that a group or "cohort" of students is identified and then monitored over a period of time. The current rates, set out below, are based on the group of students who enrolled in the College for the first-time, as full-time students, between September 1, 2019 and August 31, 2020. The rate represents the number of those students who earned their degree or certificate within 150% of the program length in attempted credits as of August 31, 2022. The rate does not include students who did not attend more than 15 days after starting a program if their program was a year or less and students who did not attend more than 30 days after starting a program if their program was longer than a year, who left college to serve in the armed forces, who left college to serve an official church mission, or who left college to serve in the foreign service of the federal government. Students who died or were totally and permanently disabled also are excluded. The rate also does not include students who have attended college before enrolling in a program at our College.

It's important to note that the Student Right-to-Know graduation rate is calculated at the College level. In other words, there is one rate for the entire College, not a rate for each specific program.

The College also makes available each year a federal retention rate, which is the percentage of first-time, full-time and part-time degree/certificate seeking students from the previous fall who are still enrolled, or successfully completed their program, the following year. Like the Student-Right-to-Know graduation rate, this retention rate is based on a cohort study and calculated at the College level (i.e., there is one rate for the entire College, not a rate for each specific program).

The most recent federal retention rate for the College is set out in the following chart:

Number of Students in Fall 2021	No. Still Enrolled or Completed as of Fall 2022	Retention Rate
111	99	89%

Current and prospective students may request a paper copy of this disclosure from the Campus Director. This disclosure also is available on the College's website at http://nw.edu/federal-disclosures.

The Student-Right-to-Know graduation rate for the College is based on data reported by the College in connection with the National Center for Educational Statistics (NCES) Integrated Postsecondary Education Data System (IPEDS) 2022-2023 Graduation Rate Survey. The federal retention rate is based on data reported by the college in connection with the NCES, IPEDS 2022-2023 Fall Enrollment Survey.

Note: "-"Indicates that there were no students who meet the reporting criteria, or that the student population for this category is too small to be disclosed with confidence or confidentiality (i.e., 10 or fewer students).
